

Mouse Treatment Preparation

SERVICE DATE
TIME

Prior to treatment:

1. Remove ALL items from lower shelves & cabinets in kitchen, pantry & bathroom area.
2. Remove ALL items from floors of all closets.
3. ALL surfaces MUST be clean (ie. countertops, microwave, fridge, toaster etc).
4. Make sure STOVE and REFRIGERATOR are accessible and able to be moved if necessary.
5. Please allow access to ALL rooms. Pets do not need to vacate.

Prevention Instructions after treatment:

- Reduce clutter & verify all food items are stored in heavy duty plastic containers to prevent them from becoming a food source to rodents.
- Verify that garbage cans are regularly emptied and cleaned. Make sure trash lids are locked tight and do not allow rodent entry.
- Verify all dishes are cleaned daily and not left out overnight.
- Pick up all dog food, cat food, and bird seed. Store in heavy duty plastic containers & not left out after pets have fed.
- Check all food storage area doors to insure there are no gaps. Install door sweeps where necessary. Contact maintenance if needed.

We will follow up to check if your issue is resolved. **Please do not disturb traps & equipment.**
